Design your own cracking contraption

Can you create your own cracking contraption? What will it do?

Is it something to help you in your everyday life?

Is it something that will help your mum/dad or a member of your family?

How will it work? What will it be made out of?

Possible ideas:

- a bed maker
- a self-mowing lawn mower
- a robot that completes your homework
- a room tidier
- a robot cleaner
- anything else that you like!

Remember, Wallace's contraptions are made from everyday items that can be found around the house. Draw a diagram of your contraption and label it.
