

MFL Policy

This policy outlines the guiding principles by which Worsthorne Primary School will implement Modern Foreign Languages in accordance with statutory requirements.

Intent

At Worsthorne, we believe that Spanish should be taught in a way that inspires our children to have a love of learning a new language alongside a deeper understanding of the English language. We want pupils to develop the confidence to communicate in Spanish for practical purposes, using both written and spoken Spanish. Through the learning of another language, we also aim to foster our children's curiosity about the world around them and the cultures of other people.

The four key language learning skills; **listening, speaking, reading** and **writing** will be taught and all necessary **grammar** will be covered in an age-appropriate way across the primary phase. This will enable pupils to use and apply their learning in a variety of contexts, laying down solid foundations for future language learning.

The intent is that all pupils will develop a genuine interest and positive curiosity about foreign languages, finding them enjoyable and stimulating. Learning a second language will also offer pupils the opportunity to explore relationships between language and identity, develop a deeper understanding of other cultures and the world around them with a better awareness of self, others and cultural differences. The intention is that they will be working towards becoming life-long language learners.

Our teaching aims:

Our aim is to develop the confidence and competence of each child in the foreign language they are learning. Our goal is for them to be passionate, curious and confident about their own foreign language learning abilities when they finish the primary school phase of their education.

We will help them develop and demonstrate substantial progress in the 5 key language skills necessary for learning Spanish

- Speaking
- Listening
- Reading
- Writing
- Grammar

We aim to ensure that pupils of all abilities develop solid foundations in these key language learning skills - properly preparing them for the next stage of their language learning journey. These skills will develop children's ability to understand what they hear and read and enable them to express themselves in speech and writing. We will extend their knowledge of how language works and explore the similarities and differences between the foreign language they are learning and English. We will also help strengthen their sense of identity through learning about culture in other countries and comparing it with their own.

Inclusion

All pupils, regardless of race, gender, culture or disability have the opportunities to develop their skills in MFL. The school promotes equal opportunities and fairness for language learners, being aware that pupils bring into school different experiences, interests and strengths which will influence the way in which they learn. Taking these into consideration when planning and delivering the lessons, allow all children to participate fully and effectively. Teaching MFL is a vital way to enhance pupil's perceptions and to promote positive attitudes to cultural diversity. Children with SEN are encouraged to participate fully in lessons with the necessary support however, they may access other learning if this is more suited to their needs.

Implement

At Worsthorne, we utilise Language Angels scheme of work for the teaching and learning of Spanish. This enables our pupils to meet the end of key stage 2 attainment targets in the National Curriculum. The curriculum has been carefully mapped to ensure progression of skills and knowledge to be taught within each year group and how these skills develop to ensure that attainment targets are securely met by the end of Key Stage 2.

Teaching and learning

Our whole school approach to language teaching and learning is in line with the recommendations of the National Curriculum and the requirements outlined in the Department for Education Languages Programme of Study for Key Stage 2.

The National Curriculum for languages aims to ensure that all pupils:

- Understand and respond to spoken and written language from a variety of authentic sources
- Speak with increasing confidence, fluency and spontaneity, finding ways of communicating what they want to say, including through discussion and asking questions, and continually improving the accuracy of their pronunciation and intonation
- Can write at varying length, for different purposes and audiences, using the variety of grammatical structures that they have learnt
- Discover and develop an appreciation of a range of authentic writing in the language studied.

By the end of key stage 2, pupils should be able to:

1. Listen attentively to spoken language and show understanding by joining in and responding.
2. Explore the patterns and sounds of language through songs and rhymes and link the spelling, sound and meaning of words.
3. Engage in conversations; ask and answer questions; express opinions and respond to those of others; seek clarification and help.
4. Speak in sentences, using familiar vocabulary, phrases and basic language structures.
5. Develop accurate pronunciation and intonation so that others understand when they are reading aloud or using familiar words and phrases.
6. Present ideas and information orally to a range of audiences.
7. Read carefully and show understanding of words, phrases and simple writing.
8. Appreciate stories, songs, poems and rhymes in the language.
9. Broaden their vocabulary and develop their ability to understand new words that are introduced into familiar written material, including through using a dictionary.
10. Write phrases from memory, and adapt these to create new sentences, to express ideas clearly.
11. Describe people, places, things and actions orally and in writing.
12. Understand basic grammar appropriate to the language being studied, including (where relevant): feminine, masculine and neuter forms and the conjugation of high-frequency verbs; key features and patterns of the language; how to apply these, for instance, to build sentences; and how these differ from or are similar to English.

All classes will have access to a very high-quality foreign languages curriculum using the Language Angels scheme of work and resources. This will progressively develop pupil skills in foreign languages through regularly taught and well-planned weekly lessons in Spanish. Children will progressively acquire, use and apply a growing bank of vocabulary, language skills and grammatical knowledge organised around age-appropriate topics and themes - building blocks of language into more complex, fluent and authentic language.

Children will build on previous knowledge gradually as their foreign language lessons continue to recycle, revise and consolidate previously learnt language whilst building on all four language skills: **listening**, **speaking**, **reading** and **writing**. Knowledge and awareness of required and appropriate grammar concepts will be taught throughout all units at all levels of challenge.

Each teaching unit is divided into 6 fully planned lessons.

- Each unit and lesson will have clearly defined objectives and aims.
- Each lesson will incorporate interactive whiteboard materials to include ample **speaking** and **listening** tasks within a lesson.
- Lessons will incorporate **challenge sections** and desk-based activities that will be offered with three levels of stretch and differentiation. These may be sent home as homework if not completed in class.
- **Reading** and **writing** activities will be offered in all units. Some extended reading and writing activities are provided so that native speakers can also be catered for.
- Every unit will include a **grammar concept** which will increase in complexity as pupils move from **Early Language** units, through **Intermediate** units and into **Progressive** units.
- Extending writing activities are provided to ensure that pupils are recalling previously learnt language and, by reusing it, will be able to recall it and use it with greater ease and accuracy. These tasks will help to link units together and show that pupils are retaining and recalling the language taught with increased fluency and ease.

Units are progressive within themselves as subsequent lessons within a unit build on the language and knowledge taught in previous lessons. As pupils progress through the lessons in a unit they will build their knowledge and develop the complexity of the language they use. We think of the progression within the 6 lessons in a unit as '**language Lego**'. We provide blocks of language knowledge and, over the course of a 6-week unit, encourage pupils to build more complex and sophisticated language structures with their blocks of language knowledge.

In addition to following the lessons provided in the Language Angels scheme of work and resources, teachers are encouraged to also do some of the following:

- Foreign language celebration assemblies.
- Cookery sessions of traditional foods from the country of the language being studied.
- Fashion shows demonstrating typical / traditional clothing from the country of the language being studied.
- Weather forecasts based on maps from the country of the language being studied.
- School celebrations of national feast days from the country of the language being studied when appropriate to facilitate a whole school approach to foreign language learning along with improved cultural awareness.

Impact

As well as each subsequent lesson within a unit being progressive, the teaching type organisation of Language Angels units also directs, drives and guarantees progressive learning and challenge. Units increase in level of challenge, stretch and linguistic and grammatical complexity as pupils move from Early Learning units through Intermediate units and into the most challenging Progressive units. Units in each subsequent level of the teaching type categories require more knowledge and application of skills than the previous teaching type. Activities contain progressively more text (both in English and the foreign language being studied) and lessons will have more content as the children become more confident and ambitious with the foreign language they are learning.

Pupils will continuously build on their previous knowledge as they progress in their foreign language learning journey through the primary phase. Previous language will be recycled, revised, recalled and consolidated whenever possible and appropriate.

Teachers will have a clear overview of what they are working towards and if they are meeting these criteria. They will use the **long-term planning** documents provided in the form of **Language Angels unit planners** to ensure the correct units are being taught to the correct classes at each stage of the scholastic year.

Short-term planning is also provided in the form of **unit overviews** (covering the learning targets for each 6-week unit) and **individual lesson plans** laying out the learning aims and intentions of each individual lesson within a unit. These planning documents ensure that teachers know what to teach and how to teach it in each lesson, across whole units and across each scholastic term.

Pupils will be aware of their own learning goals and progression as each unit offers a pupil friendly overview so that all pupils can review their own learning at the start and at the end of each unit. They will know and will be able to articulate if they have or have not met their learning objectives and can keep their unit learning intention sheets and unit core vocabulary sheets as a record of what they have learnt from unit to unit and from year to year.

The opportunity to assess pupil learning and progression in the key language skills (speaking, listening, reading and writing) and against the 12 DfE Languages Programme of Study for Key Stage 2 attainment targets is provided at the end of each 6-week teaching unit. This information will be recorded and will be monitored by the Foreign Language Subject Leader who can use this data to ensure teaching is targeted and appropriate for each pupil, class and year group as well as to feedback on progress to SLT and stakeholders. Teachers will be able to record, analyse and access this data easily using the Tracking and Progression Tool that will monitor school, class and individual progress in the foreign language. Pupils will also be offered self-assessment grids to ensure they are also aware of their own progress which they can keep as a record of their progress.

Monitoring and evaluation

The Subject Leader monitors the effectiveness of the language teaching provided throughout the school via regular observations with feedback given to teachers delivering foreign language lessons. The Subject Leader and class teacher will together monitor the learning and progression made by pupils across the key stage.

The Subject Leader will encourage, where appropriate, class assemblies and presentations in Spanish. They will also encourage cross-curricular topics be taught in Spanish to knit together various areas of the curriculum.

All data, ranging from evidence of classroom teaching to individual pupil skills reports, is securely stored on a password protected database. This can be accessed by class teachers, the Subject Leader and SLT so all key stakeholders can evaluate delivery, performance and progress.

Review

This policy will be reviewed by the Subject Leader and the Senior Leadership team then presented to Governors before being formally adopted by the school.
